Subject: Thank you and Questions

Hi Gayle,

Thank you so much for hosting me a couple weeks ago.

Now that the dust has settled, the agents working this investigation have been asking about data your folks were collecting. When Joe Perrino and I left your office on April 25th, there were some logs and other data, specific to the individuals named in the search warrants, that your people had not yet produced.

Could you tell me if your people are still working on compiling data for the FBI? Were you waiting for additional legal process from the United States Attorney's Office regarding this data?

The Assistant United States Attorney for this case believes the search warrants provided to you on April 25, 2019 are still valid for the items we were unable to collect that day.

I have a list of specific data sets I requested from you and several that I discussed with Ron. Below is the list of items which we were looking to obtain from your office but did not collect on that day.

Could you let me know if you have some or all of the items below set aside for the FBI? If the items have not been collected, how much time is needed to compile these data sets?

The requested data should only be in reference to Catherine Pugh and Gary Brown Jr., per the two search warrants provided on April 25, 2019.

- Active Directory (AD) and Windows User Authentication Logs for the two individuals
- Cisco AnyConnect VPN, legacy iSpec VPN, 7206 VPN Concentrator, or other remote access logs for the two individuals
- Files created, modified and/or deleted on the "City Hall" share drive for the two individuals
- Backups of the user profiles for the two individuals and their devices, which your office refers to as 'Shadow Copies', prior to April 8, 2019
- Files deleted from the profiles by the two individuals which may be contained in a network server "Recovery Bin"

These data sets in addition to the internal hard drive from the computer in the Mayor's Office are what the agents are looking to obtain under the current search warrants.

Please feel free to contact me if you have any questions.
